

reindeer escape viewing party

Three reindeer ran away from the christmas viewing party on 23rd street yesterday afternoon. "I was eating chips when I heard this awful shriek and saw some fruit punch fly in the air" said Fredrico Holes who was one of the 635 people that came to the party. The reindeer ran through the party and were seen near Marnard Buttswatt's hole on 16th street. Fluff Daddy called the police and said that a reindeer had ran away from their viewing party. If you have any information about the reindeer, please call (537)-657-071.

Dr. Warren Fuzzy got his head stuck in a whiskey bottle on his trip back from Antigua and Barbuda and could not publish his regular paper so we will have Frederick Tuftington and the food review.

I went to China cook on Friday and had some good food.

The Hippo tongue has very good tofu inside, but when you dip it in the cow bladder sauce, it gets quite sour. The waiter's name was Edgamar and he was extremely nice, repeatedly he came over to make sure I had everything I needed. However, the reason I rated it three stars overall was because of the fact that Cheryl, another waiter, tripped over a Shirley temple glass on the ground, spilling all the glasses onto the floor. Then, Fredricimo smashed into Cheryl and they tumbled onto the floor at my feet. This
